PROFESSIONAL SUMMARY

Customer-focused IT support professional with hands-on experience providing first-line technical and application support in a structured, SLA-driven environment. Experienced in Microsoft 365, user access and authentication, VPN and remote connectivity, hardware/software troubleshooting, incident handling, documentation and escalation. Combines technical support with a Master of Business Analytics, automation and data skills, plus approximately three years across customer-facing and operational roles. Known for clear communication, calm problem solving and adapting quickly in fast-paced environments. Seeking opportunities across IT Support, Service Desk, Desktop Support, ICT Support and Technology Operations.

TECHNICAL SKILLS

Service Desk & IT Support: First-line support, incident and service request handling, ticket documentation, prioritisation, escalation, SLA awareness, ITIL-aligned processes

Microsoft & End-User Technology: Windows, Microsoft 365, Outlook, Teams, SharePoint, OneDrive, software troubleshooting, account/device setup, onboarding/offboarding

Identity & Access: Okta, MFA troubleshooting, password/login support, account unlocking and user access support

Connectivity & Hardware: VPN and remote-access troubleshooting, basic networking concepts, PC assembly/configuration, peripherals, drivers and software installation

Support & Business Tools: Oracle Siebel, Genesys, knowledge management systems, Zoho CRM, Advanced Excel

Automation & Analytics: Power Platform, Power Automate, APIs, SQL, Python, Power BI, Tableau, process mapping and root-cause analysis

PROFESSIONAL EXPERIENCE

Solution Specialist – IT Solutions | Probe CX | My Aged Care *May 2026 – Present*

- Provide first-line technical and application support, investigating user issues and guiding users through clear, practical troubleshooting steps.
- Manage incidents and service requests through structured support processes, documenting symptoms, user impact, actions taken and outcomes.
- Support application access, Microsoft 365, login, MFA and remote-access issues, escalating complex matters with complete supporting information.
- Use Oracle Siebel, Genesys and internal knowledge resources to manage interactions and maintain accurate support records.
- Work within ITIL-aligned and SLA-driven processes while balancing service quality, timeliness and customer communication.
- Contribute to workflow improvements using Power Platform, Power Automate and API integrations.

Database Integrity Technician | Flexikitch *Jul 2025 – Oct 2025*

- Supported the accuracy of 10,000+ product records across 20+ suppliers through validation, troubleshooting and structured data cleansing.
- Built and tested a Python/AI-assisted workflow that increased processing throughput from approximately 2 to 300 items per hour.
- Documented validation rules and technical procedures to improve consistency and operational reliability.

Business Consultant | Practera *Jun 2024 – Sep 2024*

- Gathered client requirements, analysed operational challenges and presented practical recommendations to technical and non-technical stakeholders.

Vice President | La Trobe Student Association *Aug 2024 – Dec 2025*

- Supported users with Microsoft 365 applications, account/device setup, Okta login and MFA, password/access issues and VPN connectivity.
- Assisted with onboarding/offboarding while coordinating multiple stakeholders, deadlines and operational requests.

ADDITIONAL CUSTOMER SERVICE & OPERATIONS EXPERIENCE

Customer Service Representative | NUDO Event Management *Current*

- Support customers and event operations in a fast-paced environment, responding to enquiries, resolving issues and communicating professionally with different stakeholders.

Operations Team Member | Woolworths

- Supported day-to-day operations and customer service, working collaboratively, prioritising tasks and maintaining accuracy during busy periods.

HANDS-ON TECHNICAL EXPERIENCE

- Custom PC Build & Configuration — researched compatible components, assembled the system, installed Windows and drivers, configured software and troubleshoot hardware/software issues.

EDUCATION & PROFESSIONAL DEVELOPMENT

Master of Business Analytics | La Trobe University | 2025 | 71.33%

Bachelor of Commerce (Hons.) – Accounting | NMIMS | 2023 | GPA 3.06/4.00

Microsoft 365 Certified: Endpoint Administrator Associate (MD-102) — currently preparing for the certification exam.
